

# **MM60 Series**

## **PCI Express (PCIe) Mini Card Connector**

Connector Training Module

Technology to Inspire Innovation

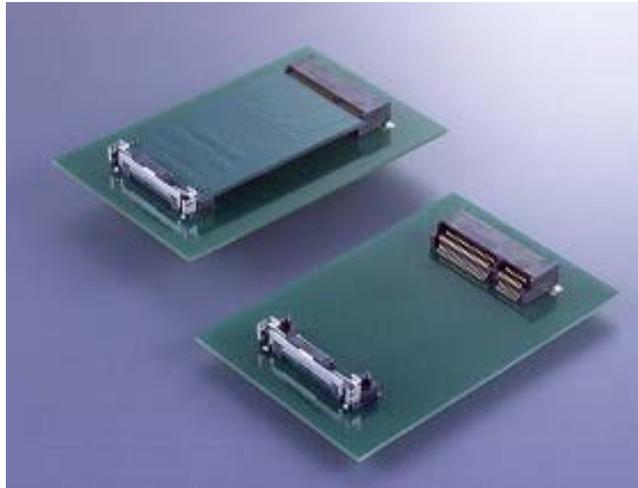

## Application Examples

- Integrated Wireless Network Interface Controller Card (WNIC) Interface
- PC and Server internal communication transmission interface
- Internal integrated GPS card interface
- USB transmission interface
- SIM card for GSM and WCDMA applications
- Solid State Hard-Drive (SSD) applications for notebook or netbook computer
- Memory module interface for notebook or netbook computer

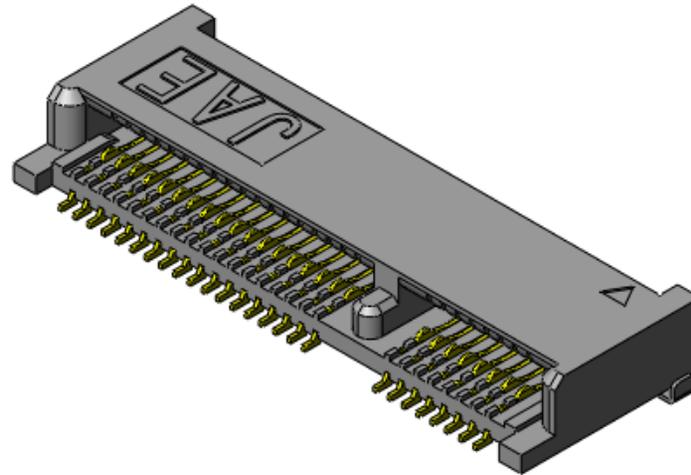

## MM60 Series Overview

PCI Express Mini Card (also known as Mini PCI Express, Mini PCIe, and Mini PCI-E) is a replacement for the Mini PCI based on PCI Express specifications standardized by the PCI-SIG. It can be used for connection with PCI Express and modules for USB transmission. Most laptop computers built after 2005 are based on PCI Express and can have several Mini Card slots.

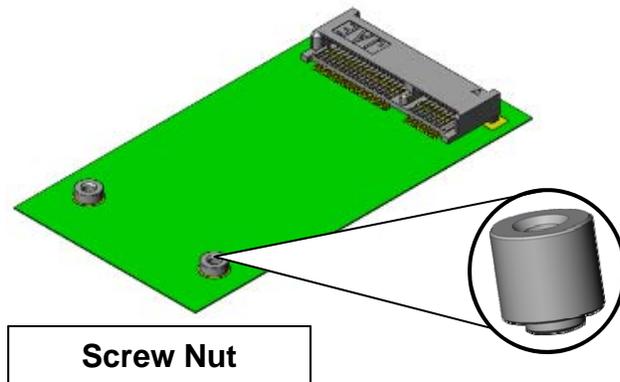

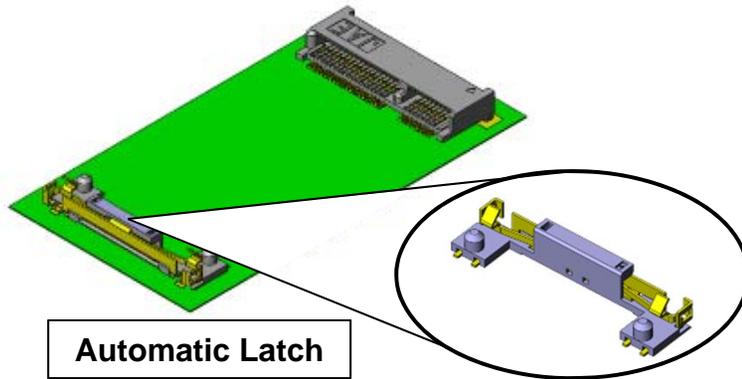

# MM60 Series Features

- JAE MM60 Series is a module socket compatible with specifications standardized by PCI-SIG
- Compatible to PCI Express Mini Card Electromechanical SPEC
- Can be used for connection with PCI Express and modules for USB 2.0 transmission

# MM60 Series Features

## Mounting Options

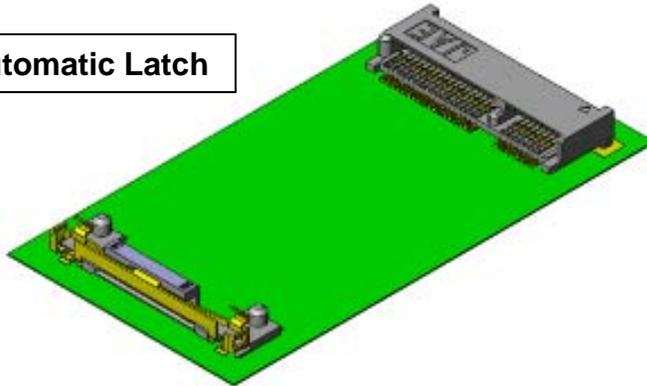

- 2 SMT mounting card hold down options are available
  1. Automatic latch type
  2. screw nut type
- Automatic latch type – no tool is needed
- Screw nut type – compatible with widely available M2 threaded screw

# MM60 Series Features

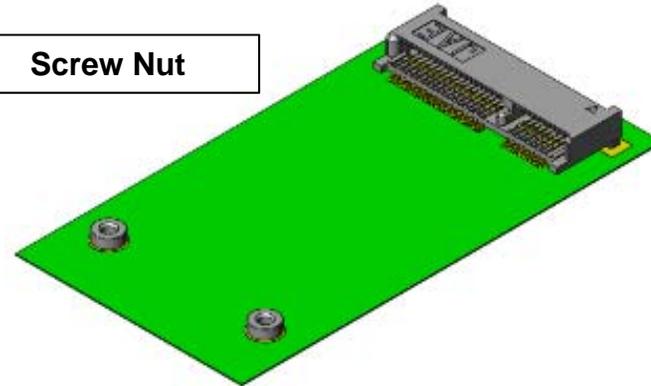

## MM60 Series Offerings

Connector	Stacking Height	Boss	Automatic Latch	Screw Nut
MM60-52B1-E1	5.9 ± 0.2	Yes	MM60-EZH059-B5	NT4R
MM60-52B1-G1	4.0 ± 0.2	Yes	MM60-EZH039-B5	NT1R

Automatic Latch

Screw Nut

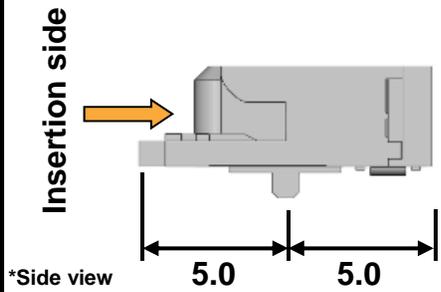

# General Specifications

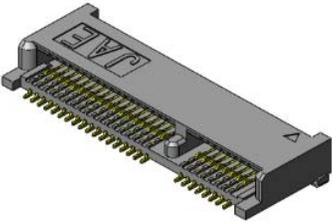

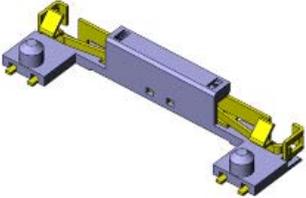

<b>Number of Contacts</b>	52 pos.
<b>Pitch</b>	0.8mm
<b>Contact Resistance</b>	55m $\Omega$ max (initial)
<b>Dielectric Withstanding Voltage</b>	AC 300Vr.m.s (per minute)
<b>Operating Temperature</b>	-40 to +80°C
<b>Rated Current</b>	0.5A per pin
<b>Life Cycle</b>	50 times
<b>Insertion Loss</b>	-1dB min. (1.25GHz max.) / -5dB min. (3.75GHz max.)
<b>Return Loss</b>	-12dBmax. (1.3GHz max.) / -7dB max. (2GHz max.) / -4dB (3.75GHz max.)
<b>Cross Talk (near end)</b>	-32dB max. (1.25GHz max.) / -26dB max. (3.75GHz max.)

# Basic Dimensions

**\*Unit: mm\***

	Connector	Latch	Screw Nut
<b>X (Height)</b>	3.9, 4.0, 5.9	4.8, 6.8	2.15, 4.15
<b>Y (Length)</b>	29.7	29.0	4.0
<b>Z (Depth)</b>	 <p>*Side view</p>	7.9	4.0

# Materials and Finishes

<b>Connector</b> 	<b>Component</b>	<b>Material / Finish</b>
	<b>Contact</b>	Copper alloy / Contact area: Au plating over Ni Terminal area: Au flash over Ni
	<b>Insulator</b>	Heat resistant material (UL94V-0)
	<b>Hold down</b>	Copper alloy / Sn plating
<b>Automatic Latch</b> 	<b>Component</b>	<b>Material / Finish</b>
	<b>Contact</b>	Stainless steel / Sn plating
	<b>Insulator</b>	Heat resistant material (UL94V-0)
<b>Screw Nut</b> 	<b>Component</b>	<b>Material / Finish</b>
	<b>Contact</b>	Brass / Sn plating

## Summary

- MM60 series is a PCI Express (PCIe) mini card connector.
- Module socket compatible with specifications standardized by PCI-SIG
- Widely adopted as wireless-to-wireless communication interface
- Compatible to PCI Express Mini Card Electromechanical SPEC
- Used for Connection with PCI Express and modules for USB transmission
- Automatic latch mounting type is ideal for on field module upgrade or maintenance applications
- Screw nut mounting type is ideal for applications that deal with constant vibration
